

Student Council

Officers: Kim Saunders (Treas), G. Lisk (Pres), D.Gauvin (VP), C.Rinker (Sec).

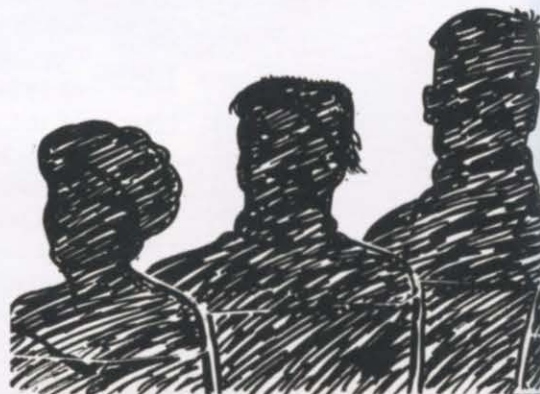

The Student Council came to life again! After several dormant years, its members really began to get things done around the school. It once again approached the ideal of a proper student government-an organization that works for the good of the student body.

Under the leadership of Senior Greg Lisk, the Student

Council accomplished many things. Among them were purchasing a table for the student lounge, establishing a paper recycling program, providing a Christmas tree for the rotunda, and having student lounge declared a designated eating area. These proposals were debated and passed with efficiency and speed because of the fine work of the homeroom representatives and Council officers.

We were proud of our Student Council. It did its very best to serve us in any way that it could. It was a Council that any school would have benefited from.

Due to factors beyond our control, we were unable to acquire this photo after three attempts. We hope this will suffice.

During one of their rehearsals, Brett Cabeca and Lisa DeRoche go through their lines together.
