Through our trials and tribulations,
we came through as a . . .

Sparkling Staff

Pressure!!! Deadlines!!! Writing!!! Copy!!! Glueing!!! These were familiar lamentations among the Yearbook Staff. Putting the Yearbook together was more work than anyone could imagine. It took a person with special dedication, willingness to work, and plenty of imagination to be on the staff.

In August of '88, Cassie and Miranda spent five days at Gettysburg College, learning the 'right' way to create an artistic yearbook. They brought their skills back to Room 106 in the Fall and shared them with the rest of the Staff. Then the work of producing a top-notch book began.

The Staff was known for its long hours in Mr Lemak's room. By the time they got home at around 6:30, they had missed dinner-the microwave was their best friend. Every night, as the athletes headed out the front doors, Miranda designed lay-outs, Cassie wrote stories, Flo handled money matters, Bobbi and Teresa glued copy, and Holly and Mr Lemak typed and transmitted copy to the printing company.

All of their labor paid off in a Yearbook that we can be proud of. It is a quality publication that contains the heart, spirit, and pride of us all. It is an innovation in the fine Odessanean tradition.

The Staff hopes that everyone shares its pride in the 1989 Odessanean and appreciates the sweat and devotion that went into it. As was characteristic of our year together, it is truly a Polished Performance.
